

HyVibe is a sound technology company launching a product for use with acoustic instruments. The Company is seeking a marketing intern to be apart of its experienced French and American product development team. This is an opportunity to gain marketing, manufacturing, design, and international business experience. You will also have the opportunity to work closely with well-known musicians.

Intern duties include:

- Assist in the development and implementation of HyVibe's marketing strategy.
- Help execute 'growth hacking' strategies for publicity and building community for product launch this summer.
- Serve as social media liaison & community manager.
- Photograph and film music events.
- Potential opportunities to work with component sourcing/negotiations during the manufacturing process.

Notes:

Musically inclined and preferably a guitar player.

Languages: English, French.

Start date: ASAP.

Experience with Adobe Creative Suite, film & photo editing software.

Term: 3-6 months.

To apply, please send your CV and a brief cover letter to jobs@hyvibe.audio.
